Lucre may be filthy, but you can't wash it without violating a Federal statute which ferbids the mutilation of currency. Hence Capt. Thomas I. Porter, head of the government Secret Service in Chicago, stopped the demonstration of a washing ma-chine here in which 250 one-dollar bills were undergoing a cleaning process. The bills were taken to the Federal building, where ten were found to be torn. Anyway, there is Biblical authority for the ban upon washing filthy lucre: "Them that are filthy let them be filthy still."
